

Covid 19 Information Update

We appreciate your patience in working with us during these trying times.

Social distancing, wearing masks, and other measures are being done to help keep you safe in our office.

We require all patients to wear a mask or face covering to their appointments. We are only permitting the person scheduled for the appointment in the office currently (no spouse, partner, or children).

If your child is a minor, a parent or guardian is permitted to be with them wearing a mask as well.

If you have traveled out of Ohio in the 14 days prior to your appointment, your appointment will need to be rescheduled.

Covid screening will continue at all appointments.

We are taking the appropriate precautions to help reduce the spread of COVID-19 (coronavirus).

Be safe and stay well!

Dr.'s Domingo, Brister and Staff
